

## **Second World War roll of honour**

**This document lists the names of former Scouts and Scout Leaders who were killed during the Second World War (1939 – 1945).**

The names have been compiled from official information gathered at and shortly after the War and from information supplied by several Scout historians. We welcome any names which have not been included and, once verified through the Commonwealth War Graves Commission, will add them to the Roll.

We are currently working to cross reference this list with other sources to increase its accuracy.
