A “good draft” of this version will be made available to Early Adopters in **July 2023**. This will support Early Adopters in their planning but will not come into effect until the point of each County's transition. The time between June and October will also be used for a pre-publication check so that clarifications can be made to POR prior to formal publication.

### **2024**

There will be two editions of POR - in April and October.

There will be NO January or July editions of POR in 2024
