

# Indoor campfire examples

Fill a large, translucent milk bottle with water and add glow sticks. Decorate the top with flames cut out of coloured paper or tissue paper. Stack sticks and logs around the carton.

Fill clear jars with fairy lights and put them together. Paint flames around the outside of the jars or leave them plain.

Build a small circle with stones or rocks and put a battery-powered tealight in the middle. Lightly scrunch red, yellow, and orange tissue paper and put it around the tealight so the light shines through.
