

# Reuse challenge

## How many times have I reused?

Mark with an X every time you reuse something and briefly explain what it was and how it saved energy, money, or waste)

<input type="checkbox"/> Example: Made a beach bucket from a clean detergent container instead of buying one (saved the energy to make a new bucket, and saved money).	<input type="checkbox"/> Example: Turned off the lights when I left my bedroom, even though I was only going out for a minute (saved energy and money).
<input type="checkbox"/> Example: Washed out a glass jar to store toys in my room (saved the jar from going to waste).	<input type="checkbox"/> Example: Had a shower instead of a bath (saved energy and money because I didn't use so much hot water).
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
