3

## Requirement 2:

2

Create and share a resource that would allow someone else to replicate your project with minimal previous knowledge. This resource should be digital, and it can be any format you like: a video (or a series!), an online (printable) document, an entry on a tutorials website such as Instructables, or a blog post, or you could meet with people who could benefit from your solution to share how you created it and explain how it can help them.

**Resource type:**

**Resource URL:**

If your resource is printable, please print it and show it to your leader.  
If your resource is a video, please show it to your leader.
