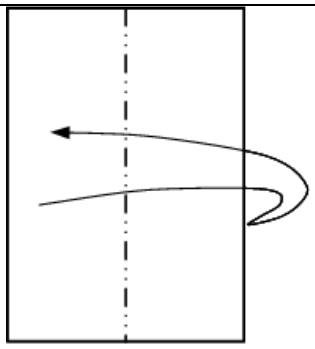
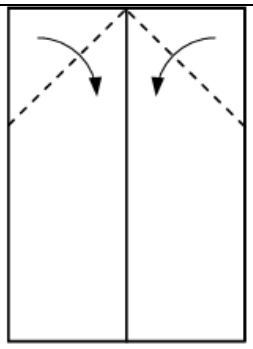
Fold a paper plane

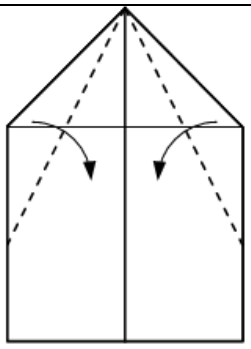
Follow these simple step by step instructions to make a plane from a piece of paper.



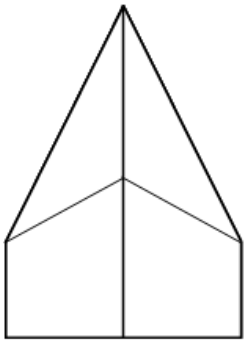
1. Fold the paper lengthways.



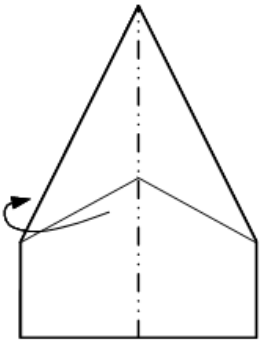
2. Fold upper corners down at a 45° angle.



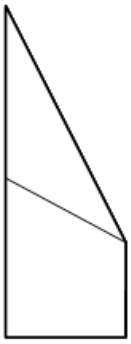
3. Fold each side again so that the edges meet in the centre.



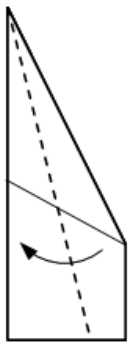
Your paper should now look like this.



4. Fold the paper in half along the centre crease.



Your paper should now look like this.



5. Fold the wing along the dotted line shown.

... and voila, this is how the completed plane should look.

See how far your plane can fly!
