

Teach It Forward

Something I could...

...teach using equipment we have in the room <i>Example: How to tie a knot</i>	...teach without using any equipment <i>Example: A new game</i>
...share that might help one person in the group <i>Example: How to take a good photo</i>	... share that could help everyone in the group <i>Example: An ice breaker challenge</i>
... make a difference to my community <i>Example: A first aid tip</i>	... teach to promote teamwork or help people understand each other <i>Example: How to resolve a disagreement</i>
